Support IOS/Android; Support the use of mobile phones to view real-time video, real-time recording, and playback video; Support local screen shots by mobile app; Support push alarm information screen shot; Support two way voice intercom; Support cloud storage; IP address can be set through the phone.

SPECIFICATION	S-P90
System	Embedded Linux operation system
Resolution	HD:1920*1080/SD:640*360
Video encode	SMART H.264
Frame rate	25FPS
IRCUT	Built-in dual IRCUT
Lens	3.6MM lens
IR	10pcs LED, IR distance 5-10m
Horizontal	0°- 355°
Vertical	0°-90°
Audio	Two-way voice intercom
Encode	PCM
SD Card	TF card interface: Maximum support 128GB SD card
Cloud	On Subscription basis
Method	Sonic configuration, AP mode
Wired network	10M/100M adaptive Ethernet interface
Wireless network	IEEE802.11b/g/n
Wireless BitRate	150Mbps(Max)
P2P connection	Supported
WAP2	Supported
Cloud services	APP: Secureye Eagle
Function	Can update time, image settings, SD card settings,
	motion detection settings, video settings, system upgrades.etc through APP
Motion detection	Supported
Temperature & Humidity	Operating Temperature:–10°C~50°C; Humidity:0%-60%RH (non-condensing)
Power	DC5V/1A
